## Contractor Group On Sugar Mill Job

They're here? The contractor—Farrel-Birmingham of Ansonia, Conn.—representatives are on the job and ready to start actual construction of the \$12,000,000 sugar mill at Bryant, one-half mile east of Canal Point. Test piling have been driven and all tests have proven satisfactory.

Resident manager for Farrel-Birmingham is Richard J. Smith, Jr., and with him are: William G. Winkis, purchasing agent and John M. Green, project accountant. The group has leased the former Lennie Stuckey house in Pahokee and set up sort of a bachelors' headquarters. An office has been opened at the Bryant site of the construction work.

Arthur J. Keller and Associates of Baton Rouge, Inc., are the planners for the new sugar factory, Mr. Smith said. Plans, as drawn by that group will be executed by the contractor on the site at Bryant.

Start of the mill for the U. S. Sugar Corp., is the fourth mill to be under construction in the Glades area at the present time. Of course, there are two—Okeelanta and Clewiston—operating already. There are three more on the planning boards and other great land sales not yet recorded are lending impetus to the "sugar boom" already well underway in the western section of Palm Beach County.

## Billy Graham In Clewiston Monday

Billy Graham's Everglades Rally at Clewiston on Monday night March 13, will be unique in that hundreds of Seminole Indians will join the congregation. In fact, it was the Seminoles' invitation which brought Graham to the Everglades on the one free night of his Greater Miami Crusade next week.

The Indians are equally enthusiastic with other citizens over the approaching event, at Brighton, Big Cypress and Dania Reservations, they have held meetings to prepare for the Rally and to practice the songs which they will sing in their own tongue.

Rev. Billy Osceola, president of the Seminole Tribal Council (a title equivalent to chief of the tribe) has made a radio broadcast inviting all South Florida to join the Rally. He made the broadcast in English and repeated it in Miccosukee, one of the two Seminole languages.

Ministers and laymen of Clewiston and other area towns are making local arrangements for the Rally. Dr. Graham, his family and members of the Team will be guests of the Seminoles at dinner on Brighton Reservation prior to the Rally.

## Shipments Are Up On Vegetables

Produce shipments through Mar. 2 from the Lake Okechobee shipping area has amounted to an estimated movement of 11,462 carlot equivalents compared to 10,456 for the same period last year, according to the USDA in its report of March 3. Prices on all commodities are generally low and the demand for the past several weeks has been from moderate to weak.

Warm, clear weather conditions prevailing throughout the Glades area has caused most produce to mature fast and harvesting continues rather heavy, some growers leaving products on which the market is nil or very low, in the field.

## Steer Feeding Is Glades Experiment

This winter there have been three steer feeding experiments in progress at the Everglades Experiment Station. The purposes of these three studies are as follows:

Experiment 1. To determine the value of Everglades-produced field corn silage for fattening steers and to determine if zinc bacitracin (Silotracin) alters this value.

Experiment 2. To compare citrus pulp, blackstrap molasses, ground snapped corn and a mixed concentrate for fattening beef steers on pasture and to determine the value of two enzyme preparations in steer fattening rations.

Experiment 3. To compare fattening rations with and without citrus pulp for fattening steer calves in dry lot and to obtain information concerning the economics of fattening steer calves.

It is felt that it might be of interest to some of you to see these cattle. A short field demonstration will be held at the Everglades Station at 10:00 a. m. on Friday, March 17. This will allow you to observe the animals, pastures and feeds being used. A summary of results of each experiment will be made up to that date.

It should not take more than an hour to inspect and discuss the experiments. These should be of interest to those of you who are providing supplemental feed to cattle on pasture or fattening cattle in dry-lot.

## Last Pump Station Nearly Complete

WEST PALM BEACH—Last of the presently scheduled giant Central and Southern Florida Flood Control District pumping stations in the Everglades area is now nearing completion, it is announced by FCD Executive Director G. E. Dail, Jr.

This is Pumping Station No. 3, astride the Miami Canal on the Palm Beach-Broward County line, designed to pump 1,872,000 gallons of flood waters per minute and discharge them safely in the 585,000-acre Everglades storage marsh, Conservation Area No. 3, located in Broward and Dade Counties.

This latest hurricane and tropical storm fighter will be able to drain a 208-square mile area and store the water in the three FCD conservation areas. It is being built by the Jefferson Construction Company, Miami, and completion is expected about the end of this year. Its machinery is being supplied by Fairbanks-Morse. Total cost will be some \$3,250,000 on an 80-20 Federal-State matching basis. Its construction, begun in April 1959, is being directed by the U. S. Army Corps of Engineers for the Central and Southern Florida Flood Control Project.

Dail said, however, it is doubtful whether the new facility will be ready for acceptance by the FCD, in behalf of the State of Florida, for maintenance and operation

before early next year.

Other major pumping stations already being operated and maintained by the FCD include Pumping Stations Nos. 2 and 3; the world's largest unit of its kind, Pumping Station No. 5-A, at 20-Mile Bend west of West Palm Beach; No. 6, on the Hillsboro Canal some 25 miles west of Delray Beach; No. 7, which straddles the North New River Canal on the Broward-Palm Beach County line, accepted from the U. S. Army Corps of Engineers only last month; No. 9, in Broward County west of Hollywood, on the South New River Canal, which pumps excess waters into Conservation Area No. 3; and No. 13, near State Road 7 west of Hollywood.

## Here's what the new $3\frac{3}{4}\%$ interest rate on U.S. Savings Bonds means to you:

**\$3 = \$4** *fourteen months faster than before*

### *The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000, in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{4}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

### **More advantages of U.S. Savings Bonds**

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

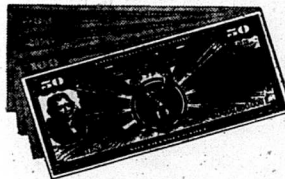

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—5% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

## Boys Ranch Lauded By Penna. Group

CLEARWATER—A Philadelphia Department of Public Welfare commissioner has lauded Pinellas County Sheriff Don Genung and the Florida Boys Ranch in a letter to Gov. Farris Bryant.

Randolph E. Wise of Philadelphia congratulated Bryant on the "forward and humane step which the state of Florida is taking to provide disadvantaged youths another opportunity."

Sheriff Genung, chairman of trustees for the ranch, spoke recently at the 18th Regional Forum of the National Jail Association in Philadelphia. Genung told of the Florida Sheriffs Boys Ranch near Live Oak and showed a documentary film describing the ranch.

Wise said, "I was extremely impressed with this documentary and of the progressive step taken by the Florida Sheriffs Association to prevent and to control the spread of delinquency."

## Open Air Meeting For Billy Graham Clewiston Monday

CLEWISTON — Billy Graham, internationally acclaimed evangelist, will address an open-air meeting in Clewiston the night of March 13.

Dr. Graham has that evening free from a busy schedule in his Miami Crusade and quickly accepted an invitation from Seminole Indian clergymen and English-language ministers to speak. The evangelist had often expressed a desire to speak to members of the Seminole tribe.

The invitation was signed by the Rev. Billy Osceola, pastor of the First Seminole Indian Baptist Church in Ft. Lauderdale, and chairman of the Seminole Indian Tribal Council.

Dr. Graham will preach in English. Because some Seminoles do not speak English but speak one of two dialects, arrangements have been made to record the service on tape so that it can be translated at a later time for those who do not understand English.

## Park Short Course O'Lena State Park

HIGH SPRINGS—A busman's holiday is in store for more than 100 employees of state, county and municipal park departments next month when they done their "work clothes" at the twelfth annual Florida Park Short Course at O'Lena State Park, six miles north of here.

The course will be held April 10-17. It is conducted each year by the General Extension Division of Florida in cooperation with the Florida Association of Park Personnel, the Florida Park Service, the National Park Service, the American Institute of Park Executives, and the University of Florida.

Dr. Robert L. Fairing of Gainesville, coordinator of the short course for the Extension Division, said the program is designed to help Florida's park personnel achieve a broader perspective of their vocation.

"Not only will it provide opportunities for increased understanding of the varied problems encountered in park development, operation and maintenance, but it also will provide factual information essential to reaching intelligent and practical solutions to these problems," he explained.

Each day there will be lectures, field demonstrations and informal discussions. Time also will be provided for the exchange of experiences with other park personnel.

Persons attending the short course will be housed in rustic cabins at O'Lena and will take their meals in the new park dining hall.

## Billy Mayo Named Interstate Hiway Administrator

William T. (Billy) Mayo of Tallahassee has been named Administrator of Interstate Highways in Florida, effective today (March 1). State Road Department Chairman John R. Phillips said Mayo will continue to serve as the District Three representative on the Road Board, a position he has held since the Bryant Administration took office on January 3.

As Administrator of Interstate Highways, Mayo fills a post that has been vacant for the last 18 months.

The position previously was held by Wilbur Jones, who resigned on August 31, 1959, to return to private business. Jones was chairman of the Road Department from January of 1955 to June of 1958, when he became Administrator of Interstate Highways.

Phillips said the new Administrator will have a major responsibility in coordinating Interstate development with the Florida State Turnpike Authority, which is now mapping final plans for extension of the present Miami-Fort Pierce Sunshine State Parkway to Orlando or beyond.

One segment of the Parkway, from Fort Pierce to West Palm Beach, already has been incorporated into Interstate Route 95 in that area. Governor Farris Bryant's recent Parkway extension plans indicated another possible connection with Interstate Route 75 between Leesburg and Citra in northern Marion County.

## Traffic Court Study Made Tallahassee

TALLAHASSEE — Prominent Floridians with strong interest in the administration of justice met in Tallahassee recently to hear what a two-year traffic court study will involve.

Justice Stephen C. O'Connell of the Florida Supreme Court, chairman of the Judicial Council of Florida, told listeners that state cabinet action accepting an offer by the Insurance Institute for Highway Safety, which is cooperating in a board study of highway safety for Florida, made the traffic court study possible.

James P. Economos, director of the American Bar Association Traffic Court Program, pointed out that cooperation of groups interested in Florida's traffic courts and the adjudication of traffic cases in the separate counties, is vital to successful accomplishment.

Standards approved by the Chief Justices of State Supreme Courts, National Conference of Judicial Councils, President's Committee on Traffic Safety and the American Bar Association, will be followed in the two-year research program.

## Lake Placid Has New Packing Plant

# Picture of a Promise

Sure, she's a grand old flag!  
That's why we salute her.  
That's why we pledge allegiance to her.

That pledge, in its simplest terms, is another way of saying, "Count me in. You're my country and I love you and need you. Your problems are my problems, and I'm with you all the way."

Your country's biggest single problem is the perpetual responsibility for keeping the peace its people want. You can help with this problem by remembering this:

Peace costs money. Money for military and industrial strength. Money for science and education. And money saved by individuals — by you — to help keep the economy strong. Bonds provide this money.

## Members Of This Group Aren't As Spry As They Were In 1930's

Considering the fact that this picture was taken nearly 30 years ago the fellows haven't changed a lot. Of course, today they are showing a bit of grey around the temples but other than that they are all up and around with the exception of the chap in the center back row, Gump McCormick, who paid the supreme sacrifice in the African campaign of World War II. On the left standing is Rev. Joe Tolle who was at that time pastor of the First Methodist Church in Pahokee and today is pastor of the Trinity Methodist Church in Miami. The chap on the right in the back row is none other than the vice president of Bank of Pahokee—Rupert Mock. First on the left kneeling is Robert Walker, then comes Doss Tabb and Louie Gold. The boys were members of an independent basketball team and had just won a tourney somewhere—no one seems to remember where or when—witness the emblem in young Tabb's hand. Anyway it was in the very early thirties.

## Come 29th Of April M. F. George Of Canal Point Will Be 89 Yrs. Old

It was on April 29, 1872, that one citizen of Canal Point saw the light of day out yonder in Harry Truman's home state of Missouri. We refer to M. F. George, long-time resident and building contractor, who is in pretty good health today following a puny spell of several weeks. Mr. George makes his daily trip "downtown" in Canal Point and gathers in and disperses a certain amount of local information. He is alert and has a wide circle of friends who will be extending hearty congratulations come the 29th of April when he will be celebrating his 89th birthday anniversary. Mr. and Mrs. George lived in Moore Haven in Glades County where he was active in the building trade for many years before moving to the east side of Lake Okeechobee at Canal Point. After coming to this area in 1929 Mr. George continued in the construction work and the last house he built in Canal Point was one for Dr. Young's mother only a few years ago.

Final plans were announced by Mrs. Don Collier for the annual cookie sale which will begin Saturday, March 11th. Cream and mint flavored cookies will be for sale for 45c a box. The public is invited to buy and enjoy these cookies as the girl Scouts can't accept any tips or donations at this time. There will be a Scout drive later this Spring.

The Week of March 12th will be Girl Scout Week and the members

will observe this week by attending Church in a body. The Brownies are to attend the morning services of the First Baptist Church, Intermediates are to attend the same time, at the First Methodist Church and the Senior Scouts are to attend the services at the Episcopal Church.

They accepted an invitation from the Boy Scouts to attend the Court of Honor, March 14th at 7:30 p. m. on the Boy Scout Beach. Troop No. 38 will have the opening flag ceremony. They also discussed plans for the Camporee.

## Magistrate Court Planned In Glades

A magistrate's court for the Glades, raises for criminal court judges and another assistant for the county solicitor were among legislative proposals endorsed Monday by the Palm Beach County Bar Association.

Not endorsed—and put over to a meeting which will come after the deadline set for local bills—was a proposal calling for establishment of a juvenile court in Palm Beach County.

Other measures winning the bar's OK were a proposed increase in the jurisdiction of the small claims court and the naming of another small claims judge; setting a sliding scale for fees in the same court and one calling for the naming of associate medical examiners in key areas throughout the county.

Of major interest, since they lost the justice courts which formerly served the Glades area, is the endorsement of a magistrate's court for the area.

Calling for the naming of a lawyer to the berth, which would pay \$5,000 annually, the magistrate would be empowered to issue search and arrest warrants and would try all misdemeanors calling for a maximum \$200 fine or 90 day jail term. Providing the accused does not seek a jury trial, and all traffic cases handled by the sheriff's department or the highway patrol.

Criminal court judges would receive \$3,500 pay raises, to \$18,500, if the proposed bill is passed, and another fulltime small claims court judge would be named at a \$9,600 salary.

## Addition Made To Telephone Office

The new addition to the Southern Bell Central office building in Belle Glade is now completed and installation of the new dialing equipment is underway.

The local Manager for Southern Bell, Bob Lee, says the addition cost is \$30,000 and will make available some 300 new telephone numbers. Installation of these intricate mechanisms require a large number of man hours by especially trained technicians before the new equipment is ready for use, Lee reported.

This expansion of telephone service is another step in Southern Bell's program to keep up with the growth of the area and to provide more and better telephone service here Mr. Lee said.
